Koteshwar Apartment, Chandkheda,
Ahmedabad, Gujarat

● PROFILE

Results-driven .NET Developer with 5+ years of experience in designing, developing, and maintaining web applications using ASP.NET Core, .NET, Web API, Entity Framework Core, and SQL Server. Experienced in building scalable RESTful APIs, database design, CRUD operations, authentication, and performance optimization. Skilled in front-end technologies including HTML, CSS, JavaScript, jQuery, and Bootstrap. Strong understanding of software development life cycle (SDLC), problem-solving, and delivering high-quality solutions. Familiar with PostgreSQL, Dapper, .NET MAUI, IIS deployment, and modern development practices.

● WORK EXPERIENCE

(n)Code Solutions

Current

.NET Developer

GIDM HRMS

Developed an HRMS for GIDM to manage employee attendance, leave management, salary slips, and employee records through an online portal. Implemented online Present/Absent attendance tracking and automated HR-related workflows.

E-Payment & DG Set Billing System

Online billing and e-payment system for DG Set meter readings, unit consumption, bill generation and excess-unit charges. Role-based workflows for Admin, Department, User and Consumer with online payment and Cyber Treasury integration.

C# ASP.NET Web Forms .NET Framework 4.5 SQL Server ADO.NET JavaScript AJAX RDLC IIS

B2B DSC Vendor Registration Portal

B2B portal for Digital Signature Certificate (DSC) vendor registration, onboarding and service management.

C# ASP.NET Core MVC .NET 6 Dapper SQL Server Razor jQuery AJAX Bootstrap IIS

Mining Application Management System

Digital mining application workflow for online applications, site registration, document processing and multi-level approvals.

C# ASP.NET Core MVC .NET 6 Dapper SQL Server Razor jQuery AJAX Bootstrap IIS

Insight — Project & Task Management System

Jira-like platform for managing projects, tasks, bugs, assignments, priorities and development workflows.

C# ASP.NET Core MVC .NET 6 Dapper SQL Server Razor jQuery AJAX Bootstrap REST APIs IIS

Ayushman Card Incentive Management System

Government workflow system for Ayushman Card beneficiary entries, verification and incentive processing.

C# ASP.NET Core MVC .NET 8 Dapper PostgreSQL Npgsql AutoMapper RabbitMQ ClosedXML

ASHA Incentive Management System

Digital workflow for managing ASHA-related beneficiary/incentive data and administrative processing.

C# ASP.NET Core MVC .NET 8 Dapper PostgreSQL jQuery AJAX Bootstrap REST APIs IIS

HHG Softech Private Limited

2022

Senior Developer — ERP System

Worked on an ERP System using Onion Architecture, Angular 7, and .NET Framework 4.5. Developed ERP modules, RESTful APIs, and interactive dashboards using Chart.js for data visualization.

C# .NET Framework 4.5 Angular 7 Onion Architecture Chart.js

Junior Developer — E-Commerce Platform Development

Developed and maintained e-commerce applications, including payment gateway integration, custom coupon/offer plugins, plugin updates, and overall application maintenance and management.

INDEPENDENT PROJECTS

Local Share

Local-first file transfer platform for securely transferring photos, videos and files between mobile, laptop and desktop over Wi-Fi/hotspot, with QR-based device pairing, multi-file transfer and progress tracking.

C#ASP.NET Core Web API.NET 9AngularCapacitorSignalRREST APISONNX RuntimeQR Code

Wi-Fi/LAN

Local Bill

Windows desktop billing application using .NET MAUI and SQLite for offline bill creation and management, with scheduled automatic database backup to Google Drive that syncs whenever a connection becomes available.

C#.NET MAUISQLiteGoogle Drive API

EDUCATION

B.E. — Computer Science & Engineering

2019

Babaria Institute of Engineering, Vadodara · Gujarat Technological University

CGPA 7.1

12th — Higher Secondary

2012

Gujarat Secondary and Higher Secondary Education Board (GSEB)

Percentage 64

10th — Secondary

2010

Gujarat Secondary Education Board (GSEB)

TECHNICAL SKILLS

Programming	C# / JavaScript / Python / HTML5 / CSS3
.NET Technologies	ASP.NET Core MVC / .NET 6 / .NET 8 / ASP.NET Web Forms / Web API
ORM & Data Access	Entity Framework Core / Dapper / LINQ / ADO.NET
Database	SQL Server / PostgreSQL / SQLite / Npgsql
Frontend	Bootstrap / jQuery / AJAX / Razor Views / Responsive Design
API & Integration	RESTful APIs / Web Services / ASMX / HttpClient / RabbitMQ
Auth & Security	ASP.NET Identity / JWT / Role-Based Authorization / Anti-Forgery / CORS / Session
DevOps & Cloud	DevOps / Docker / Kubernetes / Terraform / Microsoft Azure
Data & Analytics	Databricks / Data Processing / SQL
AI & GenAI	Artificial Intelligence / Generative AI / AI Integration
Reporting & Data	RDLC / ReportViewer / ClosedXML / OpenXML / Excel Import/Export
Logging & Tools	Serilog / Middleware / Dependency Injection / Health Checks / Visual Studio / Git / GitHub / IIS

MOBILE & DESKTOP	.NET MAUI, Windows Applications	OTHER	SDLC, Performance Optimization, Problem Solving, Debugging, Production Deployment
------------------	---------------------------------	-------	---
